**Abstract.** Durante el Periodo 1 obtuvimos los pilares primordiales para la gestión participativa y la edición de materiales virtuales des- tinados a procesos educativos y comerciales. En la sesión inicial empezamos abriendo nuestros perfiles en GitHub, donde establecimos un repositorio propio y asimismo un repositorio común. Gestionamos los unidades de labor, pactamos un título e imagen (añadiendo arte) y entendimos a organizar contenidos mediante celdas y agregación de gráficos, aparte de armar pestañas singulares en Markdown y conec- tarlas a la portada del bloque. En la sesión siguiente integramos aplicaciones suplementarias como Google Colab, lo [1]cual nos facilitó interactuar con cuadernos. Tam- bién descubrimos a generar ficheros HTML de manera directa y revisamos nociones básicas de HTML bajo criterios W3C, utilizándolos en la elaboración de una landing page básica. En la sesión tercera hubo [2]un paso a la redacción científica con La- TeX usando Overleaf. Abrimos nuestros accesos, testeamos su fun- cionamiento y elegimos formatos. A raíz de ello, iniciamos el crecimiento de nuestro currículum en LaTeX, centrándonos en la estruc- tura empresarial y visualización sobria. En resumen, el tramo nos otorgó utilidades vitales para el soporte en red, el control de archivos y la producción de material técnico configurado

**Keywords:** UNCUYO· TyHM · markuo language.

## 1 Uso básico de GitHub

### 1.1 A Subsection Sample

Please note that the first paragraph of a section or subsection is not indented. The first paragraph that follows a table, figure, equation etc. does not need an indent, either.

Subsequent paragraphs, however, are indented.

**Sample Heading (Third Level)** Only two levels of headings should be numbered. Lower level headings remain unnumbered; they are formatted as run-in headings.

*Sample Heading (Fourth Level)* The contribution should contain no more than four levels of headings. Table 1 gives a summary of all heading levels.

## 2 Uso básico del lenguaje html

```
<html>
<head>
<title>Mi primera pagina</title>
</head>
<body>
<h1>Mi primera pagina web</h1>
Esto es el cuerpo del texto.
<p>Esto es un parrafo</p>
<ul>
<li>Primero</li>
<li>Segundo</li>
<li>Tercero</li>
</ul>
</body>
</html>
```

**Table 1.** Table captions should be placed above the tables.

| Heading level | Example | Font size and style |
|---|---|---|
| Title (centered) | **Lecture Notes** | 14 point, bold |
| 1st-level heading | **1 Introduction** | 12 point, bold |
| 2nd-level heading | **2.1 Printing Area** | 10 point, bold |
| 3rd-level heading | **Run-in Heading in Bold.** Text follows | 10 point, bold |
| 4th-level heading | *Lowest Level Heading.* Text follows | 10 point, italic |

Displayed equations are centered and set on a separate line.

$$x + y = z \tag{1}$$

Please try to avoid rasterized images for line-art diagrams and schemas. Whenever possible, use vector graphics instead (see Fig. 1).

**Theorem 1.** *This is a sample theorem. The run-in heading is set in bold, while the following text appears in italics. Definitions, lemmas, propositions, and corollaries are styled the same way.*

*Proof.* Proofs, examples, and remarks have the initial word in italics, while the following text appears in normal font.

For citations of references, we prefer the use of square brackets and consecutive numbers. Citations using labels or the author/year convention are also acceptable. The following bibliography provides a sample reference list with entries for journal articles [**?**], an LNCS chapter [**?**], a book [**?**], proceedings without editors [**?**], and a homepage [**?**]. Multiple citations are grouped [**?**,**?**,**?**], [**?**,**?**,**?**,**?**].

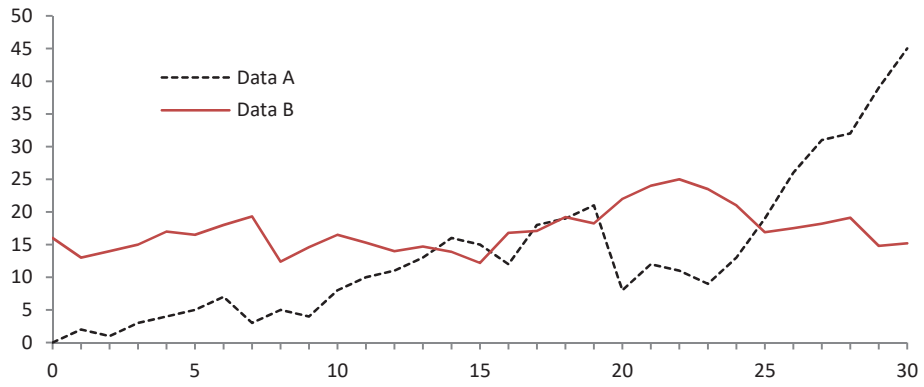

**Fig. 1.** A figure caption is always placed below the illustration. Please note that short captions are centered, while long ones are justified by the macro package automatically.

**Acknowledgments.** A bold run-in heading in small font size at the end of the paper is used for general acknowledgments, for example: This study was funded by X (grant number Y).

**Disclosure of Interests.** It is now necessary to declare any competing interests or to specifically state that the authors have no competing interests. Please place the statement with a bold run-in heading in small font size beneath the (optional) acknowledgments[1], for example: The authors have no competing interests to declare that are relevant to the content of this article. Or: Author A has received research grants from Company W. Author B has received a speaker honorarium from Company X and owns stock in Company Y. Author C is a member of committee Z.
